

# Sex Magnet 2.0 For Gay Men Instructions

February 11, 2012

## Introduction

Before I say anything else, allow me to sincerely thank you for your purchase of Sex Magnet 2.0 for Gay Men. It is very much appreciated, and it makes a real difference for me, just as this program will make a real difference for you.

## NOTICE

Sex Magnet is specifically designed to be used after you have used all six stages of the latest version of the Alpha Male Subliminal Training Set For Gay Men, and within 3 months of having finished that program. While you may get results using this program without benefit of using the Alpha Male Training Set For Gay Men first, you will be losing out on a lot of important base-line foundation building and attitude/perception adjustment and their results by doing so. It is strongly suggested and recommended to you that you use all six stages of the Alpha Male Subliminal Training Set For Gay Men before you use this program. So far, I have seen a lot of men try to skip it, and not a one has finished this program before deciding that they think it is wiser to go back and do things the way I instruct them to. The fact is, I cannot do everything in one program, so please follow instructions on this point, and finish AM/GM before using SM/GM. Also, if it has been more than 3 to 6 months since you did AM/GM, you will want to at least do a refresher of that program for 32 to 96 days.

**If you are in a committed relationship and you do not wish to attract and have sex with multiple men other than your current partner, DO NOT use this program!** You have been warned.

## What Should I Expect?

If you have followed the instructions and used the Alpha Male Subliminal Training Set For Gay Men before using this program, you know that six stage sets take time to complete. The typical six stage set requires 32 days per stage. In this case, you are suggested to use this program 32 (thirty-two) days per stage, but you may use it for as much as double that – 64 (sixty-four) days per stage – if you wish. However, do not change the amount of time each stage is used once you have set the precedent with Stage 1. In

other words, whatever amount of time you use Stage 1 for, use for all six stages. That is very important for best results. So, expect this program to require between 6 and 12 months to work through fully, depending on your preferences.

Also expect that this program has been designed quite differently than the Alpha Male Subliminal Training Set For Gay Men, and therefore will produce different effects in a number of areas for that reason. First, instead of Stage 1 being designed specifically as a clearing stage, with almost no introduction of the goal purpose, I have presumed the use of the Alpha Male Subliminal Training Set For Gay Men, which allowed me to use stages 1, 2 and 3 to extend the introductory and foundation building while simultaneously allowing the introduction of serious goal oriented material in even Stage 1. In other words, it gets serious from the start, and does not finish “bringing you up to speed” until the end of Stage 3. That is necessary because of how complex, intricate, advanced and just plain massive the script for the program is. As of this writing, this is literally the most complex and advanced subliminal ever created, and if it is not the most powerful, it is certainly up there in the top three.

Expect to see results, but don't expect to be swimming in lust crazed virgins, or drowning in sexual interest from gay men overnight. The changes are not just going to be making sex happen more frequently through manifestation, which is external, but there will be a great deal of changes happening internally for you as well.

## The Stages Explained

### Stage 1

Stage 1 is the preliminary stage, in which there are two primary goals:

1. **Normalization and foundation building.** This stage is trying to make every man who uses it equal, balanced and solid in terms of self esteem, self respect, self image, sexual confidence, sexual stamina and sexual performance minimums. This allows the rest of the program a stable, predictable basis from which to begin and continue making changes.
2. **Introduction of goal materials and manifestation efforts.** While not everything will be available for you to start with in Stage 1, those

things that can be introduced towards making you more capable and comfortable with socializing and attracting handsome gay men for sexual purposes are presented. Furthermore, the beginning of the manifestation sequences begins here, although it is not yet a major focus.

Stage 1 is primarily concerned with preparing you for those things that are critically important for success in meeting and seducing handsome gay men, including self confidence, self esteem, self respect, self control, refusal to be tricked, used or mistreated sexually, and the generation of and use of aura manipulation takes place starting here. Kills neediness. Sex drive begins increasing.

### **Stage 2**

Stage 2 continues, extends and enhances a lot of the self improvement, normalization and foundation building efforts of Stage 1. It also begins introducing new concepts that step up your development as both a skilled flirt and a man skilled at attracting and seducing handsome gay men. Manifestation becomes a solid component of the program at this stage. New auric enhancements are added in and woven into previous aura generation and enhancements. Escalation de-sensitization makes it easier to escalate a gay man past talking, and into more advanced stages, such as touch. Body language effects and eye seduction introduced here. Focus on causing gay men to notice, become interested in, and approach you is introduced. Automatic detection of, and refusal to have sex with, gay men who are attempting to manipulate you with sex, use you for sex, or have STDs is introduced. Sexual stamina and self control work begins. Kills neediness. Increases sex drive. Introduces “pulling the trigger” resistance removal. Introduces a special new type of manifestation methods.

### **Stage 3**

Stage 3 takes the self improvement and foundation building to its logical limit and conclusion. Manifestation becomes a multi-threaded effort, and a new form of manifestation is introduced here as well. Major focus on not just effortless socializing and flirting with handsome gay men, but automatically steering conversations toward sex and escalating to sex in other ways. Touch and touch based seduction starts becoming natural and automatic here. “Pulling the trigger” hesitation is dealt with. Aura is further enhanced

with new changes. Extension of concepts introduced in Stage 2. Major focus on causing gay men to notice, become sexually attracted to, and approach you. Kills neediness. Increases sex drive.

#### **Stage 4**

Jettisons the “booster rockets” from stages 1, 2 and 3 that were acting to get you to a stable state from which to deal with, attract and seduce handsome gay men. Focus now shifts strongly toward enhancing concepts introduced in Stage 2 and 3, and includes new and more advanced enhancements, ideas and manifestation specifics. Introduces getting handsome gay men to try to seduce you.

#### **Stage 5**

Even more focused than Stage 4. Refreshes Stage 3 concepts that were not dealt with in Stage 4. Now the focus is not on introducing new material, but in solidifying the more advanced stuff introduced in stages 3 and 4, magnifying and enhancing the changes that have already taken place, and getting handsome gay men to approach and seduce you. Starts polishing the effects of all previous stages.

#### **Stage 6**

Final polish of all effects so far. Focuses on shifting “you approach and seduce them” to “they approach and seduce you”. Final push for manifestation effects. Refreshes some important materials from previous stages. Pulls everything together and turns it into a well balanced, coherent whole.

#### **Refresher**

The refresher stage is a way to maintain the effects of the whole program without having to necessarily run through the whole thing again after having done so once.

It is recommended that after finishing Stage 6 of SM/GM, you run through the full six stages of AM/GM again followed by SM/GM again after that during the second year. From there, you should be solid enough to do with just the refresher stage.

To use the refresher stage, simply play it for 32 days every 2–3 months until/unless you don't think you need it anymore.

## Notes On Stages

Not everything each stage does is described explicitly. This is partly because each stage does so many things that it would be impossible for me to describe it all short of showing you the scripts. Scripts are not available because they contain trade secrets developed by me over the last 6 years, which I do not care to just give away to everyone else out there who makes subliminals, but hasn't made the effort to figure these things out for themselves. Therefore, the descriptions given here are rough and do not get terribly specific, but will give you a good idea of what is going on in each stage. Also keep in mind that Version 2.0 is built using a "smooth stage transitioning" method, which means that the transitions between stages will not necessarily bring obvious shifts in direction or experience from stage to stage. Worry not; they are still taking place behind the scenes, and you'll see results a little faster than Version 1.0 would have allowed because of this.

In many cases, specifics are left out so that your conscious mind cannot interfere with the process, which will make the program produce better results.

## How To Use This Program

The design of this program is such that it is basically "fire and forget". You choose which type of track you prefer to use (ultrasonic/silent, Masked/Trickling Stream or Masked/Ocean Surf), and then set it to play on loop from speakers in your bedroom all night long as you sleep. Headphones and earbuds can also be used, but are not recommended for use with ultrasonic subliminals, or while you are sleeping. Speakers and 24/7 looping in the bedroom makes for best overall results.

### 1. Pick Your Format

Each stage comes as three different tracks: a masked track that sounds like the ocean surf; a masked track that sounds like a trickling stream; and an ultrasonic track that is effectively silent to most adults. Simply choose which format you prefer (ocean surf, trickling stream or ultrasonic) and play it on continuous loop.

## 2. Usage Times

You should aim for 8 hours of exposure per day, which is the recommended amount of time. **DO NOT** use it for more than 16 hours per day. Your mind must have time to process the input. Using it too much can degrade processing speed. “Day” refers to each 24 hour period, so you can use the program any consecutive 8 hours in each “day”, even while you sleep at night.

## 3. DO NOT USE THIS PROGRAM WITH ANY OTHER SUBLIMINAL PROGRAM!

This program is too complex, intricate and demanding on your mind and body for it to be effective when used with ANY other subliminals. The only exception is a Type A1 program, which does not use worded scripts. Poetry of the Silent Eros Volumes 1 and 3 are the only Type A1 programs that currently exist.

Sex Magnet is designed to access and use ALL of your mental capacity and put it to use towards achieving the goals of the program. It will also use your dreams at night, daydreams, and all sources of energy it can, including your sex drive, to power its efforts. For this reason, you must allow it to be the **only** program you use during the time it is in use.

I recommend against using affirmations or hypnosis during this time as well.

## 4. Volume Selection

Setting the volume is easy. For masked tracks, use a volume that both allows you to hear the program even at the maximum distance from the speakers, and allows you to be comfortable with the volume. If you are using headphones or earbuds, set the volume to what allows you to hear the lowest volume points if you use ocean surf format, or whatever is comfortable for trickling stream format. You should not be able to hear voices clearly.

For ultrasonic volume, set the volume for masked format, and then use that volume for ultrasonic format. If you experience headaches, nausea or discomfort upon using ultrasonic format, the volume is too high. Lower it slowly until you don't experience those symptoms anymore.

## 5. Recommended Usage

It is recommended that you use the program on loop while you sleep, and play it in your bedroom through speakers at a comfortable volume. In some cases, it is helpful to create a playlist and use that.

Use the program every day, preferably for the same amount of time per day and at the same time per day. Use each stage for the same amount of time, without missing days.

Recommended exposure time per day is 8 hours; do not exceed 16 hours of exposure per day. You need time to process and act upon the instructions, and you need time to rejuvenate your energy as well. Processing subliminals as intricate and complex as this one is requires a lot of energy, and you may find yourself feeling very tired during stages 1 and possibly 2. Eventually you will adjust to the additional mental exercise. Too much exposure per day is actually counterproductive, and will slow down your results.
